Re: FCC ID: 2AA9WV360

To Whom It May Concern:

The following application is submitted on behalf of our client, VSN Technologies, Inc., for evaluation of their model V360 for certification under FCC Part 15.247 and FCC Part 15.407.

The VSN Technologies model V360 is a high definition (HD) digital camera with two transceivers. The first transceiver includes of 2.4/5 GHz WLAN+Bluetooth 3.0/4.0 modes of operation. The second transceiver includes Bluetooth Low Energy (BLE) only. The BLE transceiver is capable of transmitting at the same time with the first transceiver for each mode of operation. The evaluation of these transceivers when operating at the same time was performed and the inter-modulation product emissions from the co-located radios were found to be in compliance.

The FCC ID:2AA9WV360 was tested in full and was found to be in compliance with the aforementioned test requirements.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
